It's been a couple years now since Statik Selektah made sure the world "spelled his name right" and "stuck 2 his script". In that time he has established himself as THE new go-to beatmaker laying down joints on albums by Lloyd Banks, M.O.P., Foxy Brown, Saigon, A.G., OC, Donny Goines, and even executive producing *The Grand Theft Auto IV* soundtrack for Rockstar Games. He also spent the better part of 2009 touring globe as the official tour DJ for Q-Tip on his *Renaissance* world tour. Stat can also be found every Thursday Night on *Eminem's Shade 45* Sirius/XM satellite radio station as well as FM stations all across the world. Whew...

Enter 2010: Mixtapes and mixshow radio programs from New York City to Los Angeles to Germany are already playing the lead singles, "The Thrill Is Gone" which features Styles P and Talib Kweli and "Critically Acclaimed" with Lil Fame, Saigon and Sean Price. Stat has an uncanny knack to enlist veteran legends and the freshest new talents; LA to NC, Philly to Detroit, NYC to Boston, they all line up to flex over his now signature production. Check the track listing for the laundry list of features.
