**XXL:** "My vote for master selector is J.Rocc. He may be the dark horse, but he is one of the cleanest and succinct DJs there is."

**LA RECORD:** "J.Rocc needs no introduction ... but just in case: Party rocker, turntablist, collector, producer, old-school digger, general hip-hop icon, and best DJ at whatever event he's spinning"

- The debut artist album from the DJ for **J Dilla, Madlib, Mos Def & Talib Kweli**
- Founding member of **The World Famous Beat Junkies** in 1992
- Founding member of **The Fantastic Four Radio Show** on Los Angeles's Power 106

This is the debut album of original music from one of the original turntablists and longtime DJ for Madlib and the late J Dilla.

This is not a "DJ album". Not a beat album. Not a mix tape. This is an original work of instrumental hip-hop, dance music, smoke tracks, assorted cold rock stuff.

J. Rocc first made his name as one of the original turntablists, co-founding The World Famous Beat Junkies in the 1990s with DJ Babu, Shortkut, Melo-D and Rhettmatic, becoming a seminal force in the rise of instrumental hip-hop. He went on to host The Fantastic Four Radio show on L.A.'s Power 106, perform as the third member of Madlib & J Dilla's Jaylib, and tour the world as a solo artist, DJ and producer.

Note: SOME COLD ROCK STUF also contains a "mystery disc", one of three mystery discs included in different copies of the album. No track list is provided for the "mystery disc" and the CD label does not distinguish one mystery disc from the other.
